

Hungarob Combination

Aspect: south

Length: 11 Pitches, 370m

Grade: 7c (6c obl.)

First Ascent: Joerg Helfrich, Manuel Hofmann, Till Kramann, Alexander Stahl. 09/2011

Equipment: 12 draws, C3 .00-C4 6 (C4 0.5-4 x2) & 2x 50m, all belays fixed

Hungarob Combination is found left of Orabeswall, following straight up the black stripe up to the buttress. Past the buttress, a crack and dihedral will lead you to a vertical wall where a black stripe is found again (crux pitch). Following a corner system, you will reach the top towards the right. This is a well bolted mixed route which can be climbed with a single rack if comfortable with the grade or by adding doubles 0.5-4 if more conservative. Enjoy!

** For gear lovers, the start of Pitch 1b & 2b variations is found 100m right of the original route at a small chimney **

Pitch 1: 22 m, 6a, 5 bolts.

Starts where the big chimney from the westpillar reach the bottom. Follow the bolts.

Pitch 1b: 28m, 5a, 1 bolt.

Start by using the easy ramp or chimney to a ledge (1b), follow the crack to the fixed belay.

Pitch 2: 42m, 5c, 8 bolts

Follow the bolts to a fixed belay.

Pitch 2b: 52m, 5b, 1 bolt.

Follow the crack to the 2nd belay of the original route.

Pitch 3: 42m, 5b, 4 bolts.

Follow the bolts to a fixed belay.

Pitch 4: 20m, 6b+, 4 bolts.

Straight up to a crack which leads to a fixed belay.

Pitch 5: 40m, 6c+, 4 bolts.

From the belay, left to the first crack using a bolt. Follow this crack until it reach the level of a small ledge at the left crack. Left traverse to and up the dihedral (2b) to a roof (C4 #5). Left traverse again (1b) to an easy corner and ledge to belay.

Pitch 6: 32m, approx. 7c R, (or using #0.3 to avoid runout), 12 bolts,.

Complex technical wall with dynamic longreach move in the middle. Followed again by a technical wall and enduring runout.

Pitch 7: 17m, 6a, 2 bolts.

Straight from the belay, follow the Crack slightly to the right using a slab (2B) to belay.

Pitch 8: 46m, 6a+, 12 bolts.

Follows the bolts, after 20m slightly to the left to the belay up to where an offwidth crack coming from the left.

Pitch 9: 42m, 6a+, 2 bolts.

STRAIGHT up (C4 1 & 3 into holes) to a bolt followed by a slab to second bolt at the beginning of a huge crack (Cam 6) leading to the right.

Pitch 10: 40m, 6c, 1 bolt.

Continues right using the big crack/ corner. One bolt after 20m visible.

Pitch 11: 25m, 2a.

Reach the ledge above the belay and walk to the left to rappelstation! And, not to pass, the easy scramble to the summit!

Rappel: First rappel slightly to the left to Pitch 9 belay station, then rappel the route. Pitches 6 and 7 can be linked together.
