

GRAN TRONO BLANCO

(east face ~1200')

--- denotes original aid route

**** Giraffe - 4 rusty aid bolts replaced, 3 anchor bolts replaced, and 4 lead bolts added for the free variations. NO additional bolts added to the historic aid line. Also, lots of fixed aid funk, otherwise expect tricky placements.

EL GIRAFFE LIBRE

Honnold + Stanhope - Jan. 2012

PAN-AMERICAN

5.10 black overhang

5.5 like like

5.9 corner & traverse

5.11 escape left, awesome!
